Forecast for Tuesday 16 Feb 2021

Weather: Occasional rain and summit snow developing for a time overnight this briefly heavy, the snow mainly above 1000m, but with blizzards likely on the highest summits such as Lochnagar. This clearing to more scattered showers by morning. The day will then be mostly bright with some sunshine at times, best in shelter, but still a few brief showers these turning to snow above 800m in the afternoon and evening. Still enough wind to blow existing lying snow on the upper slopes and bring a severe chill.

Chance of cloud free mountain/hill tops above 800m: 10% overnight and at first in morning rising to 60% by afternoon.

Visibility: Occasionally poor overnight due to rain, summit snow and very poor in blizzard conditions. By day, mostly good away from cloud and showers. Briefly poor in showers and local reductions at height where wind lifts lying snow. Cloud extensive above 750m overnight and at first in morning, becoming more patchy and generally lifting to 900m in the afternoon.

Met Office Aberdeen Meteorologist's View

Significant thawing from low to middle elevations but wintry conditions persisting on the summits, where gusts over 70mph are possible.

Forecast for Wednesday 17 Feb 2021

Weather: Mainly dry in the early hours. Then a band of rain, with snow above roughly 750m, will cross over late in the night or early morning, briefly heavy with blizzards on the tops. This clearing through quickly so from mid morning becoming bright and mainly dry but with a few passing showers, mainly west of the A9, and of snow to 600m.

Maximum wind: South or southwest 40 gusts 60mph.

Chance of cloud free mountain/hill tops above 800m: 30% in morning rising 70% in afternoon.

Visibility: Occasionally poor at first in rain, snow and very poor in blizzard conditions. By mid morning, mostly good away from cloud and showers. Briefly poor in showers and local reductions at height where wind lifts lying snow. Cloud extensive above 750m overnight and at first in morning, becoming more patchy and generally lifting to 900m in the afternoon.

Temperature: **Glens:** Plus 5 Celsius
At 800m: 0 Celsius
Freezing level: 800m falling 700m
